OVERVIEW OF CULTURAL RESOURCES IN DEVELOPMENT REGIONS

Prishtina, 2024

This document is a product of the Ministry of Regional Development, and it should serve the needs of this institution, line ministries, and other relevant actors in regard to the drafting and development of programs having an impact on the preservation of the value of cultural resources.

The document was drafted by:

Shyhrete Kastrati, Director of the Department for Regional Performance and Analyses

Qefere Bajrami, Head of the Division for Regional Socio-Economic Analyses

Blinda Bytyçi, Officer for Balanced Regional Development

Xhevat Sefaj, Officer for Socio-Economic Development

Vjendita Avdiu – Musliu, Former Head of the Division for Balanced Regional Development

Consulted by: **Besim Kamberaj**, Acting General Secretary in the Ministry of Regional Development

We would like to thank the Ministry of Culture, Youth and Sports for contributing to the realization of this document.

Introduction

In order to fulfill the activities towards the implementation of Law No. 08/L-190, the Ministry of Regional Development holds responsibilities to create regional development policies and programs and develop inter-regional cooperation in order to reduce regional disparities.

The aim of the MRD is to continuously contribute to the balanced regional socio-economic development through the drafting of strategies, the implementation of programs, the preparation of analyses, and the drafting of various documents in order to influence the reduction of regional inequalities in all municipalities of the Republic of Kosovo. MRD operates with the implementation policies of its programs in seven (7) development regions with (38) constituent municipalities.

Based on the Strategy for Regional Development 2020 - 2030, Strategic Objective: 3 Utilization of natural, cultural and human resources in the service of sustainable regional development, Specific Objective 3.1 Sustainable and promoted natural, economic, cultural and human resources, the Department for Regional Performance and Analyses (DRPA), has prepared the document: "Overview of Cultural Resources According to Development Regions". The Ministry of Regional Development MRD/DRPA, in coordination and cooperation with the Ministry of Culture, Youth and Sports (MCYS), through the drafting of this document, aims to present an overview of cultural resources for the seven (7) development regions of the Republic of Kosovo, based on Law No. 08/L-190 on Balanced Regional Development, where the number of development regions corresponds with the number of seven (7) statistical regions as per the NUTS-3 classification determined by the Kosovo Agency of Statistics.

The purpose of the document: is to assist program makers and the development of policies towards the preservation of the value of existing cultural resources and their use in areas having an impact on the economy, the development of tourism, as well as on the balanced regional socio-economic development.

Methodology: in the drafting of this document, secondary data sources were used based on the findings from publications and various reports from the Ministry of Culture, Youth and Sports. The document was consulted with the internal structures of MRD and MCYS as well as with regional development agencies as a result of the regular cooperation that MRD has maintained over the years with regard to the enhancement of various analyses and documents. This document was drafted in order for the MRD to have an overview of the cultural resources presented in seven (7) development regions, with the aim of long-term utilization of these information in the design and implementation of various programs through the financing of conceptual projects with a special approach to cultural and other heritage, thus contributing to sustainable development and balanced regional socio-economic development.

The Ministry of Regional Development in 2022 has launched the call for project ideas in the "Call for Capital Investments for the Year 2023" to support project ideas designed through an integrated and comprehensive approach and which are in harmony with the objectives of the Development Strategy Regional 2020–2030 and other local and national strategies. Increasing the economic and touristic potential in all the municipalities and regions of Kosovo through projects that link the touristic, social, economic, and cultural aspects through cultural tourism, such as the restoration/rehabilitation of cultural heritage objects; rehabilitation of old neighborhoods; reconstruction/rehabilitation of historical city centers; and

construction of region-specific museums that combine the modern with the old, with specific elements of the region. This document deals with cultural heritage under permanent and temporary protection, as well as other cultural objects according to seven (7) development regions in the Republic of Kosovo.

Definitions:

Development region - means the functional territory that includes two or more local self-government units, in accordance with NUTS-3 criteria, for the implementation of regional development policies, which is distinguished by a set of geographical, socio-economic, cultural, and environmental features. The development region includes balanced regional socio-economic development pursuant to the Constitution and legislation in force, and under no circumstances does it imply administrative or territorial organization;

Balanced regional development - means the process of reducing the differences in terms of socio-economic development as well as the approximation of the level of economic, social, cultural, and environmental development between different development regions through the use of their potentials in terms of financial and natural resources and human capital;

Regional inequality - means the situation when substantial differences are evident between development regions based on socio-economic indicators;

Balanced regional development policies - imply the framework of regional development strategic and planning documents aimed at interventions in certain areas that will be implemented to achieve the goal of balanced regional development. Depending on the changes and advancement of the strategic documents, the regional development objectives shall be referred to and adopted to the latest changes.

The National Development Strategy is a document that aims to address the main obstacles to the development of Kosovo and represents a document of development initiatives, which are national objectives that have broad social governance consensus.

Cultural resources

Cultural resources are cultural assets, symbols that show the values of a certain society. They express the national identity of a country. Kosovo is known and rich with numerous cultural resources that reflect its history and cultural heritage. Objects such as mosques, Catholic and Orthodox churches, old Albanian towers, bridges, castles, and archaeological settlements are objects of cultural heritage.

The overview of cultural resources is an organized summary of information with regard to economic resources in development regions in Kosovo. These resources are presented based on historical source, structure, location, object, feature, or local historical unit. In addition to the identification of location and current state of cultural resources, the overview of resources in development regions is a very important process that contributes to their effective management and protection. Such an overview also helps in the promotion and preservation of the value of cultural assets and promotion to other actors and various organizations in order to give an impetus to the balanced regional socio-economic development.

Cultural Heritage under Permanent Protection

It contains the list of cultural heritage assets under permanent protection¹ presented in seven (7) development regions in Kosovo: Prishtina Region, Mitrovica Region, Peja Region, Prizren Region, Ferizaj Region, Gjilan Region and Gjakova Region. The permanent cultural heritage is characterized and presented in several categories such as:

- a. **archaeological heritage:**
(monument, ensemble),
(archaeological site/reserve);
- b. **architectural heritage:**
(monument/ensemble).

A cultural resource is presented by:

- name;
- category/field;
- period of existence;
- status;
- municipality;
- region.

¹ List of Cultural Heritage assets under Permanent Protection (MCYS)

Cultural Heritage under Temporary Protection

It contains the list of cultural heritage assets under temporary protection² presented in seven (7) development regions in Kosovo: Prishtina Region, Mitrovica Region, Peja Region, Prizren Region, Ferizaj Region, Gjilan Region, and Gjakova Region. The temporary cultural heritage is characterized and presented in several categories such as:

- a. **archaeological heritage:**
(monument, ensemble),
(archaeological site/reserve);
- b. **architectural heritage:**
(monument/ensemble),
(architectural conservation areas);
- c. **movable objects;**
- d. **cultural landscapes;**
- e. **spiritual heritage.**

Other Cultural Objects

It contains the list of cultural assets ³such as: (houses of culture, theater, gallery, etc.) presented in seven (7) development regions: Prishtina Region, Mitrovica Region, Peja Region, Prizren Region, Ferizaj Region, Gjilan Region, and Gjakova Region.
